## Report of School Board for 1896.

---

The steady and unceasing revolution of old Time's clock again reminds us that as trustees of the funds of the town for educational purposes we must give an account of our stewardship for the year just closed, and as we attempt it, we are impressed with the importance of the responsibility of all those, who, in any way, hold and disburse public funds that are obtained in almost every instance as the result of the closest economy and unceasing labor. Unfortunately for us, a race of imperfect beings, our mistakes are generally consummated before we discover them, so if we have made mistakes in our duties of the past year, they will stand as silent monitors to remind and prompt us to more vigilance in the future.

In all departments of life the great secret of success depends on adaptation to the kind of work or business we are engaged in. A first-class carpenter, engineer, or dressmaker, even if well educated, might be a very ordinary school teacher, or indeed be totally unfit for that vocation. All persons proposing to teach should be examined as to their fitness for the work as carefully, as by the searching test questions, for ability, now required by law.

Six terms of eight weeks each have been taught, all by female teachers, two in Hackett School by Miss M. Vernon Whelpley, one in Stoneham School by Miss Ethel Ham, and one by Miss N. Beacham. The Summer term in Churchill School was taught by Miss Mary E. Colman, Fall term by Miss Mary E. Robinson. The Churchill School contains as many pupils as both the others. It costs a little more than fifty cents

per year for each pupil for school supplies and wear of books. Whole amount paid teachers in wages, including board, \$316. Average per week, \$6.50.

Painting and shingling are needed repairs in the near future.

Respectfully submitted,

STEPHEN H. HUTCHINS.	}	School Board
CHARLES COLMAN.		of
ARTHUR SKEGGEL.		Brookfield.
